Nursery/Landscape	-3 count/3 or 4 participate
Poultry Evaluation	-3 count/3 or 4 participate
Range Plant Identification	-3 count/3 or 4 participate
Veterinary Science	-3 count/3 or 4 participate

ELIGIBILITY:

1. Teams from accredited Ag, Food and Natural Resources (AFNR) education programs in high schools in South Dakota may be entered by paying the judging CDE entry fees.
2. Top four teams and the top five individuals not on the top four district teams will qualify from each District. A chapter may enter only one team of four in any single Spring CDE.
3. If eligible and prepared, and if the time schedule permits, an individual or team may enter more than one CDE.
4. Team members shall be bona fide enrollees in a secondary AFNR program and FFA members in good standing.
5. Team members shall have passing grades in at least three units of schoolwork.
6. All participants shall be well prepared for the CDE in which they compete.
7. Participants may compete in any given State Spring CDE as long as they are an active, in-school member or until an individual is a member of a first place team at the state level or if they have participated in the National CDE for that area.
8. To participate in the National CDE's, the participants must be bona fide FFA members.
9. Regular faculty members at South Dakota State University will be in charge of organizing all agricultural CDE's, establishing official placing, scoring and tabulating results for non-scantron CDE's. If no Faculty chair can be found after a considerable amount of work the state can look at other postsecondary faculty and then into industry representatives for the CDE's.

10. CDE's using scantrons will be scored and tabulated by the tabulations committee under the direction of the CDE Chair.
11. No participant will be permitted to inspect animals **(livestock, horses, or dairy cattle)** or other CDE content **(ie: ag mechanics, poultry, etc.)** at SDSU within eight weeks prior to the State CDE with the exception of Little International competition and other SDSU sponsored activities where all chapters are invited.
12. Teams arriving late may enter the CDE where other participants are then working. No make-up competition will be provided.
13. An entire team must compete as a team within the same session.
14. The high scoring team in each CDE will represent South Dakota in national competition. To represent South Dakota in a national CDE, the winning team must have a minimum of one original team member who participated in the state CDE. If this is not possible, the second place team shall represent the state in national competition.
15. Any communication, verbal or non-verbal between participants during a career development event will be sufficient cause to eliminate the team member(s) involved from the CDE.
16. Basic clipboards without calculators or rulers are allowed.
17. NO Videotaping of any CDE will be permitted at the state level.
18. Scantrons will be handed out at the CDE location. The chairs of events will be informed to give 5-10 minutes at the beginning of the event to sit as a chapter and make sure that scantrons are properly filled out and bubbled in the areas of - team member number, chapter number and name.
19. Participants in events that require calculators are required to use the calculators provided by the event superintendent or student coordinators. No other electronic devices (cell phones, PDA's, programmable calculators, etc.) will be allowed on the person during a CDE. Cell phones will not be confiscated during the CDE event but if they are seen the students will be disqualified.
20. Advisors and CDE coaches cannot be on site at the CDE once an event starts until score cards are collected and the event is over. Chairmen or student coordinators are asked to announce that advisors and coaches must leave at the beginning of the event. Event liaisons are allowed to be at the CDE with permission of the chairmen or student coordinators only.
21. There is an understanding that the CDE rules and regulations are to be amended by action of the South Dakota Agricultural Education Instructors at the annual SDACTE/SDAAE Conference in August. Updating a CDE due to changes in technology, terminology, and standards can be incorporated into annual revisions with the consent of the CDE General Chairperson.
22. The CDE committee will be responsible for reviewing scores to ensure accuracy. CDE results are final when announced as printed in the State Convention results book.

Corrections may be made to the printed results before the announcement and are then final after the public announcement. If results are printed accurately, but announced incorrectly, the printed results will stand as final.

23. It is highly recommended that participants wear FFA Official Dress for each CDE. However, no point deductions will be assessed for official dress.
24. Ties will be broken for top five teams and top 10 individuals based off criteria listed under each CDE.
25. The state will create a Google Form based off the National FFA form that advisors/parents must fill out for any accommodations. The state will set the date that the form must be completed by and make contacts with all people who requested accommodations and make the accommodations work for those members as best as they can. For students that need accommodations that include a test read to them the advisor and the student's school will be required to supply the adult that will read the material to the member. The person must be an adult and cannot be the advisor or parent of the member.
